DIRECTORS OF THE LANCASTER COUNTY FARMERS ASSOCIATION elected Tuesday night at Blue Ball are, left to right, seated, Clyde Wivell, Clyde Buchen, James Martin; standing, Abram Zeiset, Robert Hess, James Wood, and Donald Ney. L. F. Photo.

Shafer Describes 'Great Adventure' At Banquet

We are undertaking "a great adventure" in Pennsylvania to combat the spectre of chronic unemployment that is stalking us, Lieutenant Governor Raymond P. Shafer told the Lancaster County Farmers Association at their annual banquet Tuesday night.

Speaking to some 160 members meeting in the Blue Ball fire hall, Lt Gov Shafer carefully avoided any reference to Project 70, the proposed program of parks and conservation areas, when he told farmers the "great adventure" would see "farms turned into colonies of economically built cottages for elderly people."

He added that he expects to see other farms turned into recreation areas, and still other farms turned into small business establishments where families would manufacture products for sale on the farm or at shops — similar to the way families manufacture items in Switzerland.

After the speech, members agreed, by a vote of 76 to 8, to oppose Project 70 in its present form. The recommendation was one of eight proposals, all approved, which were drafted earlier this month at a policy committee meeting.

The Lt Governor congratulated the Farmers Association on the leadership it played last spring in bringing about the defeat of the Wheat Referendum "It showed an example of individual initiative and desire to preserve liberty", he said.

He listed the several agricultural achievements of Lancaster County and pointed out a great many agricultural "firsts", including the number of farms, proportion of land area in farms, number of rural population; total income from farms, income from livestock, dairy, poultry, and many farm crops

He said "Agriculture must stay alive, because the population of the country is expected to double in the next 40 years.

Agribusiness is the sound basis of economy, he said, but it will grow only as we as individuals grow. "We must counteract the octopus of a strong central government, because every time we turn to Washington for help, we surrender a little bit of America."

He pointed out that 43 per

Awards And Trophies Are Given At County 4-H Dairy Club Banquet

Donald Trimble, in his last year of 4-H club competition, carried away the lion's share of the trophies handed out at the annual 4-H dairy club banquet Wednesday night at Hostetter's banquet hall, Mount Joy.

Trimble, a 20-year-old dairyman from Quarryville R1, took six of the 20 trophies presented He won two for breed champions, two for breed showmanship, one for record book scoring, and one for breed, fitting His record book in the Brown Swiss breed scored 95 4.

Close on his heels was Mary Ellen Mumma, daughter of Mr. and Mrs. Harry Mumma, Manheim R1, who won the trophy for record book score, breed fitting, breed showing, and all county fitting and showing over all breeds. Her Guernsey record book scored 97 3 out of a possible 100.

In the Holstein club Averril Royer, 2025 Oregon Pike, Lancaster, was top scorer with 96 8 R Edwin Harnish, Christiana R1, was high in the Ayrshire group with 95.1, and Nancy Kreider, Drumore, was high in the Jersey club with 94 2 points.

Associate County Agent was in charge of the program when 215 club members and their families saw the following awards presented.

Trophies for breed champions, and the donor, went to the following: Ayrshire, Ralph Edwin Harnish, Christiana R1, 3 years, International Stock Food Co.; Brown Swiss, Donald Trimble, Quarryville R1, senior yearling, Conestoga Veterinarian Medical Assn.; Jersey, Stephen Arrowsmith, Peach Bottom R1, two years, anonymous veterinarian; Guernsey, Susanne Mumma, Manheim R1, three years, Curtis Candy Co.; Holstein, Donald Trimble, Quarryville R1, three years, S. H. Hiestand Inc.

Showmanship Awards

For showmanship in each breed, trophies were given to: Ayrshire, Ralph Edwin Harnish II, Christiana R1, Martin's Dairy, Donald Trimble, Quarryville R1, Diller & Kreider; Jersey, Marian Jane Herr, Holtwood R1, Hempfield Mills, Guernsey, Mary Ellan Mumma, Manheim R1, Graybill's Dairy, Holstein, Donald Trimble, Quarryville R1, Moore Dairy

Miller and Bushong, Rohrerstown, also presented trophies for high record book scores in each breed to: Holstein, Averill Royer, Oregon Pike, 96 8; Ayrshire, Ralph Edwin Harnish II, Christiana R1, 95 1; Jersey, Nancy Kreider, Drumore R1, 94 2, Guernsey, Mary Ellen Mumma, Manheim R1, 97 3, Brown Swiss, Donald Trimble, Quarryville R1, 95 4

Receiving trophies from the Lancaster County Farm Bureau as fitting awards in each breed Ayrshire, Barbara Ann Kupp, Manheim R3; Brown Swiss, Donald Trimble, Quarryville R1; Jersey, Marian Jane Herr, Holtwood R1; Guernsey, Mary Ellen Mumma, Manheim R1,

Sealtest To Close Plant At Leaman Place, Amish Told

About 100 Amish dairymen were told Tuesday that Sealtest Foods would close its Leaman Place milk can receiving station on March 1, 1965.

Speaking at a meeting with the dairymen and about 50 other farmers and milk haulers in the Guernsey Sales Pavilion, Dr Roy F. Davenport, Sealtest Food's Director of Field Service, said that Lower Merion Township has agreed to suspend until the same date the enforcement of its new health code which had concerned many Amish farmers.

Sealtest had called the meeting to allow Amish farmers to inspect diagrams and models of equipment which would enable them to meet the new health requirements without electrifying their farms.

Dr. Davenport pointed out that Sealtest has been systematically closing its country milk receiving stations as more and more farmers turned to bulk tank shipment of milk. He said that the company reached its decision concerning the Leaman Place station just a few days before the meeting at the Pavilion. Farmers shipping milk in cans to the Leaman Place station had been advised that the station would be closing, but no date had previously been given

"The decision to keep the Leaman Place station open un-

CROP Committee Begins Drive For Grains To Needy Overseas

Residents of the northeast area of Lancaster County are planning enthusiastically for their part in the Christian Rural Overseas Program ("CROP") now under way throughout the Garden Spot County, says the Reverend Murray L. Wagner, CROP publicity chairman.

Three members of the County Crop Board met with Miles W. Fry and Lester Weaver at Frystown, near Ephrata, and drew up plans and heard progress reports of the program in that part of the county

Church leaders are being asked to appoint solicitors who

Two County 4-H Members Win Trips To Chicago

Two Lancaster County 4-H members were among 31 young people from the state selected to represent Pennsylvania's 45,000 members in the 1963 National 4-H awards program.

Miss Cynthia Bucher, Lititz R2, and Donald B. Trimble, Quarryville R1, will receive expense-paid trips to the 42nd National 4-H Congress in Chicago, Dec 1 to 5.

Miss Bucher, the seventeen-year-old daughter of Mr and Mrs. Willis H. Bucher, is state winner of the home economics award.

Now a senior in the Manheim Central high school., Miss Bucher has been a 4-H Club member for eight years and has completed projects in clothing, food, home management, gardening and flowers.

She attended the Pennsylvania 4-H Congress in 1961, was a delegate to Leadership School in 1963, participated in State 4-H Days in 1962, and was one of the 4-H members making an exchange trip to New York this year.

In school Miss Bucher is historian of the Future Homemakers of America, a member of the Knitting Club, Glee Club,

FIVE-DAY WEATHER FORECAST

Temperatures during the next five days are expected to average about 8 degrees above the normal range of 42 at night to 61 in the afternoon. The weather will be quite warm during most of the period turning cooler on Tuesday. Precipitation may total less than a tenth of an inch falling as scattered showers on Tuesday. The weatherman says there is a slight possibility that some rain may come to the area from Hurricane Ginny, but the possibility of much rain is unlikely.

RED ROSE®
POULTRY FEEDS

You can plant profit in your hen house when you use Red Rose Poultry Feeds!

Hens need a house that will develop their full egg laying potential, and one that is good enough to meet the nutritional requirements of layers under the strain of heavy laying.

Red Rose Laying Mash, Red Rose Complete Laying Ration, and Red Rose Booster Pellets are the feeds you need to raise your layers. These feeds are outstanding in effective quality and contain the necessary nutrients, minerals and vitamins needed by layers . . . and produce the results you want.

Place Red Rose Poultry Feeds in your hen house. You'll be gathering more eggs if you do.

● Delmarva

Prices Steady; Demand Is Fair

Broiler prices remained relatively steady during the 24 hour period ending 10:30 Friday morning. Demand was fair for moderate auction offerings.

Prices ranged 16 5 to 17.1 for reported purchases of 1, 049,900 head at farms during the period. The purchases included 411,900 head sold at Thursday's sale in Selbyville, Del.

With very few plants operating today Eastern Shore processors estimate slaughter for the week end at 696,000 head compared to the 784,000 head last week end.

The Delmarva broiler-feed ratio for the week ending Oct. 18 was up one point from the previous week at 3 1 Broilers averaged 15 97 per pound and mash cost the grower $101.83 per ton The ratio for the comparable week a year ago was 3.6 when broilers averaged 16 84 and mash cost the grower $93 23 per ton.

From Where We Stand . . .

The Same Set Of Rules For Everyone

We do not believe in discrimination against any group because of race, creed or national origin.

But on the other hand, we do not believe that any group can be given special privileges solely on the basis of race, creed or national origin.

We do not believe a society can set up one set of rules for one segment of its people and another set for the rest. We do not believe it is discrimination to ask all the peoples of a society to obey the same rules. It is not discrimination when a minority group is expected to abide by the same rules that govern the majority. If special rules are made to satisfy the wishes of a minority group, then it is the majority that is being discriminated against.

We respect the right of others to hold views and beliefs different than our own, but when those views are used to demand special treatment, they effect not only the one holding the views but others who can not demand the special treatment.

We respect the Amish farmers' right to refuse to install electricity in their barns and milk houses, but when they expect equal treatment with the farmers that have gone to the expense of modernizing their barns, we believe they are asking for special favors.

We believe that the Amish farmers should have the right to refuse to put electricity in their barns, but we believe they should then expect to accept a different price structure for their product. If they expect to sell their milk in a given municipality, then we believe they should expect to abide by the same set of rules which binds every other farmer selling milk in that municipality.

We are not in accord with all the rules and regulations that have been formulated to govern our society, but as long as they are the law, and as long as they bind the majority, they must also bind the minority.

We realize that religion is not a logical thing. It can not be equated with law or government, and we are not asking that this be done. We are not asking that anyone give up a single religious belief. We simply believe that no creed entitles a person to expect special favors in any organized society.

When anyone is in the business of selling a product, he has two alternatives. He can meet the specifications of the buyer — or he can go out of business. That is brutal, but it is the cold fact.

We would not like to see a single farmer lose his market, but on the other hand, we would not like to see conscientious farmers penalized because another group does not have to abide by the same rules.

This is the whole crux of the matter.

At least that's how it looks from where we stand.

Political Influence

Farmers are asking more and more frequently why it is so hard to get congressional action on a program that will really benefit farmers.

Time was when congressmen could be counted on to act quickly and have every reason to expect success when their rural constituents needed help.

But, we might as well wake up and face the fact that agriculture is rapidly losing its political power. The lack of action in Congress on new farm legislation for wheat (This was promised by a large farm organization last May) cotton and milk is a good sign that lawmakers are not very concerned about the political influence of farmers or farm groups. Many Congressmen now shun membership on the Senate and House Agriculture Committees. In the last year alone five Senators left the agriculture committee for other assignments. Other committees seem more politically potent.

"It is just that agriculture does not have the political influence it did", declares Senator Aiken of Vermont, ranking Republican on the Senate Agriculture committee.

And, the waning interest in agriculture is likely to continue as farm population declines and Congressional districts are shifted to give the growing non-farm population greater representation.

The impact will be this; the change in attitude of lawmakers is likely to shift the direction of farm legislation.

Farmers can expect to see more emphasis on — 1. ways to reduce the cost of government support to agriculture (this is where economy moves gain a lot of political support from Congressmen in urban areas) — 2. programs with major benefits for consumers (there is likely to be more talk of how a program will affect food prices and food quality) — 3. the effect the program will have on the total economy. (there will be less talk of how a farm policy will preserve the family farm and more about how it will reduce unemployment.

But the economic power of agriculture continues to be strong.

Agriculture continues to be important to industry, and the well being of the agricultural community is essential to the well being of the industrial community.

This is the strength of agriculture, and we should not let industrial leaders forget that the strength of agriculture is the strength of the nation.

At least that's how it looks from where we stand.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

Two Kinds of Love

Lesson for October 27, 1963

Bible Material: I Corinthians 11·2 through 13 13.
Devotional Reading: John 15.9-17.

WHEN THE religion of Christ began to spread through the world, it was so new and totally different from everything that had been called by the name of religion before that Christians almost had to find new words to express it.

Dr. Foreman

One example is the familiar English word "Love." We all know the 13th chapter of I Corinthians by heart (or if we don't, now is the time to learn it!) and we have said all our lives that love is the greatest thing in the world. What's new about that? Unfortunately, the newness of the idea of "love" cannot be expressed in our English language, but it can in Greek, which is the language of all the New Testament books. For the Greeks often had several words for (almost) the same thing, and they used these words to express the different varieties of whatever it was they were talking about. For example, there were four different words in Greek which can all be translated "love," and two in particular, "eros" (rhymes with morose) and "agape" (pronounced a-GAH-pay).

Selfish love is shellfish love

By far the more familiar one of these two words was eros; the other one is hardly ever found before the Christians got hold of it and began using it. Eros is something everybody knows about; and no pagan Greek could have seen the point if Saint Paul had told him eros is the greatest thing in the world. But it isn't, and Paul didn't say it was. Eros can be a kind of mental sickness, it can be frustrating, it can injure the one who has it, for it is what is often called "possessive" love. It is the love a domineering mother has for a child she keeps tied to her apron-strings. It is the love of a jealous lover who can't bear to see his sweetheart smile at another man. The song of eros is "I want you all for mine." This can be very sweet and there is room for it in the varied experiences of life. But it can be frustrating and painful, for it is never fulfilled. The eros-lover is never satisfied, always anxious lest his sweet possession be swept from him. And at the worst, eros love destroys personality, for the tendency of eros to seize and to hold is like the action of a clam caring not a minnow's worth for any creature around it, opening its shell only to take in, never to give. (Who ever heard of a generous clam?)

God-like love

The love of which Paul so eloquently and beautifully writes, is not eros, it is agape. Wherever in the New Testament the love of God for his children is spoken of it is always agape, not eros Now the special glory of agape is that its desire is not to be served but to serve. Eros is love that stops being love when it finds its affection is not returned. Eros is fastidious; it loves only what is lovable and noble. Eros demands that what is loved come up to a certain standard. Agape loves others as they are, where they are. But agape is never content to leave the loved ones where they are. Agape love is transforming love. If God's love were eros, he would be waiting yet —and he might wait forever—till man was good enough to deserve to be loved. But God loved us "while we were yet sinners" Agape transforms the unworthy Eros vanishes when the loved object fades; Agape, itself unfading creates a never-fading beauty in the object of love.

Where love is needed

Now it needs no argument to persuade us that agape-love is needed in this distraught world. Persons and nations perish for the lack of it. Is there any place where we can find enough agape-love to go around? Is there any company of pilgrims on this earth who have fed on this bread of heaven till they want no more? One answer comes straight to mind. The church, of course the church! It is no doubt indeed the one company out of all mankind which makes love its aim; it is the one company which has no excuse for its existence if it does not make love its aim. But the church has never achieved this love, or has never achieved it in such measure that it can say, we need no more Paul speaks of the need for love, to men and women who had many gifts of the spirit; he speaks of it to those who worshipped with joyful hearts. But even at the very throne of grace, who can say that he has loved enough?

(Based on outlines copyrighted by the Division of Christian Education, National Council of the Churches of Christ in the U. S. A. Released by Community Press Service.)

Now Is The Time . . .

BY MAX SMITH

To Attend Forage Conference

MAX SMITH

The Southeastern Quality Forage Conference and Hay Show will be held on Tuesday, October 29th, at the Guernsey Sale Pavilion, just east of Lancaster. This all-day event (10 A.M. to 3 P.M. — with lunch available) is an affair well worth attending Low moisture grass silage, quality hay, and a balanced forage program will be discussed and demonstrated We urge local farmers to take advantage of this event.

To Check Grain Bins

Several species of grain beetles and moth larvae attack stored grains in the fall, this may be noticed by extra insect activity or the heating of the grain If infestation is found, the grain should be fumigated while temperatures are still high enough to be effective. Mixtures of carbon disulphide and carbon tetrachloride may be used. Remove all animals from the building during the fumigation period and be careful of combustion.

To Ventilate Ear Corn

Some corn may be picked that is too high in moisture content to keep; the moisture should be in the low 20's unless forced ventilation is to be applied. Corn containing from 25 to 30% moisture may be dried with forced air systems. Hay drying fans may be used successfully; the amount of 10 cubic feet of air per minute for each bushel of ear corn is a good guide. Cribs more than 5 to 6 feet wide may not permit sufficient air circulation to

To Be Alert For Bedding

Many dairy and livestock producers are going to be short on bedding again this fall. It might be profitable to attempt to secure your needs before winter arrives. The use of corn stalks should be considered where the crop was not put into the silo. Shredded corn fodder makes excellent bedding and an effort should be made to harvest and store the material before snowfall comes.

Calf Scramble Will Award 5 Feeder Calves

HARRISBURG — Five 400-pound Hereford feeder steers, each worth $100, this week were donated as prizes for as many young livestock enthusiasts who win calf scrambles at the Nov. 11-15 Pennsylvania Livestock Exposition

Tom King, assistant general superintendent, said 65 4-H and FFA boys, to 18 years old, will compete in five different groups the first four nights and Friday afternoon.

In each meet, the boy who is first to halter a calf and bring it to the center of the ring will get one of the prize feeder steers Winners will be required to fatten their animals and exhibit them at the 1964 exposition.

Calves just arrived from the Western Range, all untamed and crafty, will be loaned by Lancaster Stockyards for use in the scrambles These will be part of the exposition entertainment program that will include also indoor polo, 4-H horse show, two horse demonstrations and parades of champion livestock.

All activity will be in the State Farm Show Building. Both the entertainment and main show, featuring over 3,300 head of beef cattle, swine and sheep, will be open to the public without charge.

(Continued from Page 1)

Ellen Mumma, and Kenneth Irwin, Manheim R1; and Mount Joy R2.

Mary Ellen Mumma received the Southeastern Artificial Breeders Assn. special awards as grand champion fitter and grand champion showman.

4-H Holstein Owards

The Lancaster 4-H Holstein Club awards, by Clarence Stauffer, went to: Marilyn Harbold, 10-11 year showmanship, Averril Royer, 12-13 year showmanship; Nannette Stauffer, 10-11 year fitting; Harold Welk, 12-13 year fitting.

Paul Welk was cited as the club member giving the most assistance; Nannette Stauffer, 10-11 year record book; Averril Royer, 12-13 year record book.

Receiving trophies for record book scores were: Holstein, 1. Averrill Royer, 2025 Oregon Pike; 2. James Kettering Lititz R3; 3 Kenneth Hess, Strasburg R1, 4. Paul Welk, Strasburg R1, 5 Nannette Stauffer, Ephrata R1; 6 Linda Lou Welk, Strasburg R1, 7. Mary E. Kettering, Lititz R3; 8. Jay Smoker, Stevens R1, 9. Fred Metcalf, Willow Street R2; 10. John Bartsch, Ephrata; 11. Harold Welk, Strasburg R1; 12. John C. Welk, Strasburg R1; 13. Elvin Shelly, Manheim R1; 14. Louise Kreider, Quarryville R1; 15. David Zimmerman, Reinholds R1; 16. tie, Donald Trimble and Paul Trimble Quarryville R1; 17. Dennis Landis, 182 Oak View Rd.

Guernsey: 1. Mary Ellen Mumma, Manheim R1; 2. Susanne Mumma, Manheim R1; 3. Dorothy Garber, Willow Street R2; 4. Joyce Stoltzfus, Ronks R1; 5. Eugene Denlinger, Gordonville R1, 6. Donald Ankrum, Peach Bottom; 7. tie, Doris Breneman, Willow Street R1, and Nancy Stoltzfus; 8 Lee Sharp; 9. James Adams, Landisville; 10 Richard Ankrum, Peach Bottom R2.

Ayrshire: 1. Ralph Edwin Harnish II, Christiana R1, 2. James Esbenshade, Quarryville R2; 3 Judy Flory, Lititz R2, 4. John Clark, Lititz R1, 5 Barbara Kupp, Manheim R2, 6. Paul Brubaker, Lititz R1, 7. Sandra Eshleman, Elizabethtown R1, 8. Donna Eshleman, Elizabethtown R1; 9 George Clark, Lititz R1.

Jersey: 1. Nancy Kreider, Drumore R1, 2. Stephen Arrowsmith, Peach Bottom RD; 3 Jean Kreider, Quarryville R1; 4. Marian Herr, Holtwood R1; 5. Brian Arrowsmith, Peach Bottom RD.

Brown Swiss: 1. Donald Trimble, Quarryville R1; 2. Phyllis Hoover, Gap R2; 3. Dwight Hoover, Gap R2; 4 Paul Trimble, Quarryville R1; 5. Virginia Hoover, Gap R2

157 4-H Members

Achievement reports on each of the four 4-H Clubs noted a total enrollment of 157 members of which 140, or 89 2 per cent, completed the projects

Individual statistics of each club were given as follows 4-H Guernsey Club, 41 enrolled, 39 completed, 95 1 per cent, 4-H Holstein, 47 enrolled, 41 completed, 87 3 per cent, 4-H Holstein Southern, 40 enrolled, 35 completed, 87 5 per cent, 4-H Ayrshire - Jersey - Brown Swiss, 29 enrolled, 25 completed, 86 2 per cent.

WINNERS OF THE PROJECT BOOK SCORING at the annual 4-H dairy club banquet Wednesday night with their trophies are, left to right, Mary Ellen Mumma, R. Edwin Harnish, Averril Royer, Donald Trimble, and Linda Kreider, substituting for her cousin Nancy Kreider, who could not be present.

OVER 450 HEAD OF FEEDER CALVES were weighed and tagged on Thursday for Friday's annual sale at the Lancaster Union Stockyards. Here Tom King, livestock extension specialist from the Pennsylvania State University, left, is aided by Robert Heilbron, president of the Lancaster Livestock Exchange, grade a steer on the scales. King and Arthur MacArthur, a cattleman and former herdsman at Oklahoma A&M University, graded all cattle for the sale. In addition to the 450 calves from 25 breeders in Pennsylvania, Maryland, and Delaware, members of the Lancaster Livestock Exchange consigned 180 head of good and choice calves. Calves were Angus, Hereford, Shorthorn, Charolaise-Angus crosses, and Angus-Brahma crosses. L. F. Photo.

For the Farm Wife and Family

It's Bazaar Time

By Mrs. Richard C. Spence

To put on an outstanding bazaar means that you must have some outstanding items to offer your customers. If you are on the Food committee for your bazaar may we offer you some suggestions.

Your culinary talents will certainly pay off at the bazaar when you present these two creamy homemade candies. One is chocolate, the other vanilla, both with the addition of bright colored canned fruits and peels. Packed in attractive reuseable boxes, they're sure to be a money-maker.

CANDY JEWELS

2 cups sugar
½ cup light corn syrup
½ cup water
2 egg whites
1 teaspoon vanilla extract
1 cup chopped nuts
1 8-ounce jar fruits and peels, finely chopped

In a saucepan combine sugar, syrup and water. Stir well over low heat until sugar is dissolved. Cover pan, and bring mixture to a boil. Boil 1 minute or until crystals on sides of pan have melted. Remove cover. Continue cooking over gentle heat to 265 degrees (about 20 minutes). Beat egg whites until stiff. Slowly pour syrup over whites, while beating. Add vanilla, nuts and chopped fruits and peels. Let stand at room temperature, occasionally beating with spoon until mixture has consistency of soft dough. Place in a greased 8-inch pan. Chill until dry and firm. Makes 2 dozen 2 x 1¼ inch pieces.

* * *

FRUITED CHOCOLATE FUDGE

1⅓ cups evaporated milk
2 cups sugar
2 6-ounce packages semi-sweet chocolate pieces
1 1-pound jar fruits and peel

Combine evaporated milk and sugar in a saucepan. Bring to a full rolling boil, stirring constantly. Continue cooking to 225 degrees (about 10 minutes). Remove from heat. Add chocolate pieces and stir until mixture is smooth. Fold in fruits and peels. Pour into an 8-inch square pan, lined with wax paper. Chill. Makes 3 dozen 1¼ inch square pieces.

* * *

TOFFEE CRUNCH

1 cup butter or margarine
1⅓ cups sugar
1 tablespoon light corn syrup
3 tablespoons water
3 cups sugar-coated puffed rice cereal
1 8-ounce package semi-sweet baking chocolate

Melt butter in a saucepan. Add sugar, corn syrup and water. Cook over medium heat, stirring occasionally, to hard crack stage (300 degrees). Remove from heat and stir in cereal. Spread in a well buttered 7 x 11-inch pan. Cool. Turn out on wax paper. Melt semi- sweet chocolate. Spread half the chocolate over candy. Turn and spread remaining chocolate on the other side. Chill. To serve, break in small pieces. Makes about 1½ pounds.

* * *

MARSHMALLOW CREAM FUDGE

1 jar marshmallow cream (5-ounce to 10-ounce jar)
1½ cups sugar
⅔ cup evaporated milk
¼ cup butter or margarine
¼ teaspoon salt
2 6-ounce packages semi-sweet chocolate pieces
½ cup nuts, chopped (optional)
1 teaspoon vanilla

Combine marshmallow cream, sugar, evaporated milk, butter and salt; bring to a full boil, stirring constantly. Boil 5 minutes, over moderate heat, stirring constantly. Remove from heat. Stir in chocolate pieces till melted. Add nuts and vanilla. Pour in greased 8-inch square pan. Chill till firm. Makes about 2¼ pounds.

* * *

SCRABBLE SQUARES

1 12-ounce package semi-sweet chocolate pieces
2 tablespoons vegetable shortening
1 6¼ ounce package (about 3 cups) miniature marshmallows
2 cups coarsely broken pretzels

Melt chocolate pieces and vegetable shortening over hot water; remove from water. Combine marshmallows and broken pertzels in bowl; add and fold in carefully till blended the semi-sweet mixture Spread evenly in foil-lined 11 x 7½ x 1½ inches or 9-inch square pan. Chill till firm. To serve: let stand at room tem-

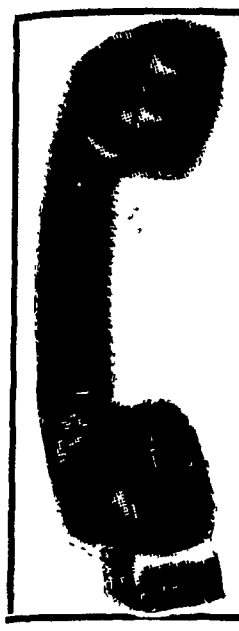
3 tablespoons vegetable oil
1 cup bran flakes

Sift together flour, baking powder, salt and sugar. Stir in orange rind and nutmeats. Combine egg, orange juice and vegetable oil; add to flour mixture, stirring only until combined. Stir in bran flakes. Pour into greased 9½ x 5¼ inch loaf pan. Bake in moderate oven (350 degrees) about 50 minutes or until done. Cool on rack 10 minutes. Remove from pan. Cool before slicing.



NEW LIFE FOR YOUR SOIL IS AS FAR AWAY AS YOUR TELEPHONE!

- Limestone neutralizes acid soil . . . Gives sounder roots, healthier plants and finer crops, high quality magnesium.
- Low cost limestone pays for itself in better crops, higher production and MORE PROFIT!

Ways To Use Canned Vegetable Liquids

Substitute for part of the milk in cream soup, white sauce, or gravy.

Use as part of the liquid in tomato aspic or vegetable molded salad

Add to canned or homemade vegetable soup

Stir into drippings from roast beef when making gravy

If you throw away these liquids, you're pouring money right down the drain.

THURSTON

Safety Tips For Cooking

Handle hot utensils with dry potholders or mitts — never a dish towel. If potholders are damp, steam is created as you use them.

Remove the lid from a hot utensil by lifting the far side first to shield you from steam.

Avoid carrying pans filled too full with hot food, especially liquid.

Turn handles of utensils toward the center of the range or the center of the work area. It's all too easy to tilt or upset a pan when the handle is toward the outside.

Use tongs to turn food in the skillet or to remove food from hot water.

Use a thermometer when deep-fat frying to prevent overheating fat.

Wear well-fitting tailored garments when cooking Loose fitting clothes with full sleeves or jutting pockets and bows are hazardous because they can

15 PP&L SCHOLARSHIPS

Under 2 separate programs

Teaching, engineering, journalism, medicine, mathematics, biology, forestry, agriculture, the ministry—no matter what the chosen career—PP&L's scholarship programs offer opportunities for deserving high school seniors in need of financial help to continue their education.

These scholarships are available to young men and women whose parents are customers of the Company. If you know of qualified high school seniors, have them look into the PP&L scholarship programs. Details are available in all high schools in the Company's service area.

Remember, tomorrow's leaders will be college-educated men and women. Your encouragement may help some youngster to an opportunity that might not otherwise be available.

COLLEGES AND UNIVERSITIES INCLUDED IN THE PP&L SCHOLARSHIP PROGRAMS

Bucknell University
Cedar Crest College
Dickinson College
Elizabethtown College
Franklin & Marshall College
King's College
Lafayette College
Lehigh University
Lycoming College
Marywood College
Moravian College
Muhlenberg College
Susquehanna University
University of Scranton
Wilkes College
Bloomsburg State College
East Stroudsburg State College
Lock Haven State College
Millersville State College

saucepan. Stir over low heat until butter is melted. Add sugar and eggs. Blend. Sift together dry ingredients Add to molasses mixture alternately with milk. Mix well. Drop from large tablespoon onto baking sheet at least 2 inches apart and 1 inch from the edge of the baking sheet. Bake in a moderate oven (350 degrees) 10 minutes. Cookies should be about 3½ inches in diameter when baked. Makes about 3 dozen.

PUMPKIN CHIFFON PIE

Crust:

- 1⅔ cups graham cracker crumbs
- ¼ cup sugar
- ½ teaspoon ginger
- ¼ cup butter or margarine, softened

Filling:

- 1 envelope unflavored gelatine
- ⅔ cup brown sugar, firmly packed
- ½ teaspoon salt
- 1 teaspoon cinnamon
- ½ teaspoon ginger
- ½ teaspoon nutmeg
- ⅛ teaspoon cloves
- 3 eggs, separated
- 1 cup evaporated milk
- ½ cup water
- 1½ cups pumpkin
- ¼ cup granulated sugar

Thoroughly blend graham cracker crumbs, sugar, ginger and softened butter or margarine. Press firmly against bottom and sides of a 9-inch pie plate. Bake in a moderate oven (375 degrees) 8 minutes. Cool and fill.

Combine gelatine, sugar and next 5 ingredients. Beat egg yolks in top of double boiler. Stir in milk, water and pumpkin, then gelatine mixture. Cook over boiling water, stirring constantly until thickened. Chill. Beat egg whites until stiff but not dry, beat in granulated sugar. Fold into cooled pumpkin mixture. Turn into crumb shell. Refrigerate until set.

NOTE: This filling is also delicious in a plain baked pastry crust.

For The Farm Wife

(Continued From Page 10)

1⅓ cups milk
⅓ cups melted butter or margarine
1 package (12 ounces) frozen blueberries, thawed and drained

Combnie first 4 ingredients in sifter; sift into mixing bowl. Add eggs, milk and melted butter or margarine; stir until dry ingredients are just moistened. Fold in blueberries Fill well-greased medium sized muffin pans ⅔ full. Bake in hot oven (400 degrees) until done, about 20 minutes. Cool in pans a few minutes; remove and finish cooling on wire rack. Makes 18 muffins. For plain muffins, omit blueberries.

PECAN ORANGE MUFFINS: Follow recipe above; omit blueberries, add 1 teaspoon grated orange rind and ⅔ cup chopped pecans.

RAISIN OR DATE NUT MUFFINS: Follow recipe, omit blueberries, add ½ cup finely chopped pitted dates or seedless raisins and ½ cup chopped nutmeats.

APPLE CRUMB COFFEE CAKE

¼ cup warm water (105-115 degrees)
1 package or cake yeast, active dry or compressed
½ cup (1 stick) margarine, softened
½ cup sugar
½ teaspoon salt
3 eggs
¼ cup milk
2⅓ cups unsifted flour

Measure warm water into small warm bowl. Sprinkle or crumble in yeast Stir until dissolved Cream margarine thoroughly in large electric mixer bowl. Gradually add sugar and salt. Cream together. Add yeast mixture, eggs and milk. Beat at medium speed until well blended. Gradually add and blend in flour while beating at medium speed; beat until mixture is well blended. Spread batter in well- greased 9 x 9 x 2-inch square pan Arrange Apple Crumb Topping (below) over dough. Cover; let rise in a warm place, free from draft, until doubled in bulk, about 1 hour Bake in a moderate oven (375 degrees) about 35-40 minutes Turn out of pan and cool on wire rack

APPLE CRUMB TOPPING

2 or 3 large apples
⅔ cup sugar
½ cup unsifted flour
2 teaspoons cinnamon
6 tablespoons margarine

Core and slice apples and arrange on dough. Combine remaining ingredients and mix until crumbly. Sprinkle over apples

* * *

LIVERWURST LOG

½ pound ground liverwurst
½ cup shredded cheddar cheese
¼ cup chopped black olives
½ medium onion, chopped
½ teaspoon salt
⅛ teaspoon ground black pepper
Pimento slices
Hard-cooked egg yolk, chopped

Blend first six ingredients, form into a log about 1-½ inches in diameter. Wrap in wax paper and chill for 2 to 3 hours to allow flavors to blend. Before serving, garnish with pimiento and chopped egg yolk. Makes about 1-½ cups.

catch on equipment

To Insure Long Wear From Jeans, Look For

Strong fasteners, easy to adjust

Close, even stitching — double stitched, felled seams for strength.

Conveniently located pockets.

Riveted or bartacked reinforcements at points of strain.

Garments cut with the true grain of the fabric to prevent twisting around the leg

A label that states the garment won't shrink more than one percent — controlled shrinkage assures a better fit

Garments that carry a vat-dyed label They should not lose their color when laundered or fade because of exposure to light. However, all jeans will fade with time at points of hard wear, such as knees and pockets.

Facts Worth Knowing

Life insurance companies assets now exceed $137 billion . . $49 billion is in mortgages.

The number of working wives now totals 13 and a half million or one-third of all married women Full-time jobs for wives contribute 35 to 40 percent of their families' total income

Producers Co-op Shows Growth

William G Carlin, President of the Producers Cooperative Exchange, Coatesville, reported recently to the Board of Directors a volume of 9,696,610 dozen eggs were marketed during fiscal year ending September 30, up ten percent over last fiscal year.

Total sales of all products was $4,053,753, up nine percent; savings of $23,000, was more than doubled over last year.

President Carlin appointed the following Nominating Committee: John H Herr, Chairman, Lancaster 7; John Grosh, Mount Joy R1; Larry Kegerreis, Palmyra R1, Jay R Greider, Mount Joy, Lester M Gehman, Manheim R2, Alternates Parke J Gibson, Parkesburg Clark Fleming, Belleville

The annual meeting will be held the second Tuesday in December at Plain and Fancy Restaurant, Bird-in-Hand, Carlin announced

New Holland Young Farmer Classes Begin

The first of a series of six meetings on dairy feeding and management will be held at 7:29 p.m., Tuesday, November 5, at the Garden Spot High School in the Vocational Agriculture classroom.

The topic of the first meeting is Forage Feeding and Handling Management. A. O. Smith Harvestore Silo personnel will present data on forage feeding value to the group.

Gene Daugherty, Young Farmer advisor said this week. "All farmers are encouraged to attend all of these dairy meetings."

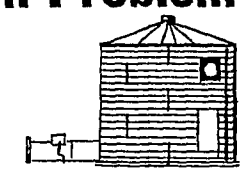
New, Low Cost Artificial Dryer Can Solve Your Wet Corn Problem



Has a slow growing season, plus an early frost left you with wet corn? If this is your problem, now is the time to do something about it *Your County Agent is recommending artificial drying*

A Circle Steel drying and storage bin from Grove Manufacturing Company is not only one of the best, but lowest cost solution to this problem Considerably less than other installations, a Circle Steel bin will give you the advantages of on the farm artificial drying at an initial cost of only $3 000 to $5,000, and can easily be financed over a long term

They go up in just a couple of days, they're permanent, durable buildings Circle Steel bins are bottled gas fired, so simple, they're almost foolproof They have been proved in the midwest grain belt for wheat, soybeans, and shelled corn

THIS IS THE YEAR TO DO IT

A Circle Steel dryer can pay off fast with this year's wet corn

OTHER ADVANTAGES TOO

- drying and storing permits you to sell when the market price is at its highest
- allows harvesting at 26% to 28% moisture content, reducing ear drop and snap and roll shelling losses
- prevents molding, rodent and other insect damage

LAST MINUTE DEAL

As Grove Dealers for Circle Steel bins, we have a special wet corn program that will have you drying and storing your corn in as little as a week's time—with little effort on your part—at a cost that will surprise you

cent of all Pennsylvanians are engaged in some form of agribusiness — Pennsylvania's major industry.

Chester Himes, a state director spoke briefly describing Project 70 a form of deficit financing, and said the $70 million bond issue was only the beginning. The Federal Government has already agreed to match up to $30 million bringing the total to $100 million, "and this is just for acquisition of the land. Parks will have to be developed on top of this." he said.

Other recommendations passed to be referred to the Pennsylvania Farmers Association legislative committee and the number of votes received were as follows:

1. Amend the constitution to permit Bible reading and prayer in the public schools. 76-1.

2. That taxpayer's money be used only for transporting pupils to public schools. 65-8.

3. Enact legislation to legalize the destruction of woodchucks in their burrows. 70-3.

4. That public utilities and governmental agencies be limited on the use of estertype herbicides in areas of grape, tomato and tobacc oproduction. 75-0.

5. Legislation to protect any persons from liability for treatmato and tobacco production. accident. 75-0.

6. That any inspection requirements to produce quality milk be substained by research before enforcement. 71-3.

7. That no handler of milk or their employes shall change or adjust any producer's dairy equipment other than the manufacturer's recommendation. 69-4.

In other business, members voted to change the local bylaws to increase the number of directors from 11 to 13. Seven new directors were elected, bringing the total to 12. Another one will be added next year.

The new directors are Clyde Wivell, Columbia R1; Clyde Buchen, Manheim R3; James Martin, 567 Delp Road, Lancaster; Abram Zeiset, East Earl R1; Robert Hess, Strasburg R1; James Wood, Peach Bottom, and Donald Ney, Marietta.

Present directors are Harold Rohrer, 1623 Book Road, Lancaster; James Kreider, Quarryville R1; Ellis Mentzer, New Holland R1; Leroy Pfautz, Stevens R1, and Noah Wenger, Stevens R1.

Noah Wenger was also appointed membership chairman for the year.

• Sealtest

(Continued from Page 1)

til 1965," Dr. Davenport said, "will give our shippers a year and a half to decide on what course of action they will take . . . whether to find another market for can milk or to switch to bulk tanks. Usually, we give six months notice on the closing of a receiving station, but because of other factors affecting our shippers here, we have increased that time

"The decision by Lower Merion health officers to postpone the effective date of the new health regulations will help, too," Dr. Davenport declared "Previously, the Township had named March 1 of next year as the final date for compliance Now, our Amish shippers will be able to continue their regular milk shipments through 1964, if they wish, and can make plans for the plant closing and the new health regulations at the same time.

The new Lower Merion health regulations call for increased lighting in barns and milk houses, and many observers felt that they could be met only on electrified farms, which are forbidden by the Amish religion.

After Lower Merion announced its new regulations last spring, Sealtest asked lighting and refrigeration experts to study the problem faced by the Amish to see if some equipment could be designed to meet the regulations while keeping within Amish religious beliefs. The designs that resulted from these studies were displayed Tuesday at the Pavilion. Dr Davenport encouraged the Amish to study the models closely, even though the new regulations have been postponed for another year. "It's a question which must be decided, sooner or later," he said. "We urge you to inspect the plans displayed here and to make your decisions accordingly"

Dr. Davenport added that the decision to keep the Leaman Place plant open for another year will not be binding if too many shippers stop using the plant. "But if we are forced to close the plant sooner, you will be given several months notice," he said.

Dr. Joseph Walker, veterinarian with the Milk Control District No 1, which included Lower Merion Township told the dairymen, "I know you are perturbed by the regulation, but we believe it is justified"

He said he does not believe the Amish dairymen are the subjects of discrimination. If the regulation is not enforced, the 6,800 other shippers under the regulations will be discriminated against, he said.

One Amish farmer then asked Walker "Do you believe in creation or evolution?" When Walker declined to answer, the farmer said, "If you believe in evolution, we have no basis to do business with

A PEOPLE TO PEOPLE PROGRAM Is the way Christian Rural Overseas Program (CROP) has been described. Shown gathering some of the first donated corn are members of the Lancaster County CROP volunteers. Left to right they are, in front of the wagon, William Shenk, commodity chairman; on the wagon, Miles Fry and Lester Weaver, area supervisors; kneeling, Murray Wagner, publicity chairman, and Edward Steiner, County chairman; reading, Richard Grant, Lancaster Council of Churches, and Glenn Baughman, Mennonite Central Committee.

● CROP

(Continued from Page 1)

will gather contributions of corn from farmers of the area and bring it to a central farm during CROP Harvest Week (November 17. - 23). After shelling and drying the corn will be stored and auctioned off in amounts according to the purchaser's need. No corn will be sold under market price. Time and place of the auction will be announced at a later date.

All services including transportation, shelling and drying are being contributed for the high purposes of the project.

Solicitors are authorized to accept cash contributions where that may be the wish of the donor. All funds received in cash or from the sale of the corn will be used for the purchase and shipment of essential goods to the overseas needy. Thirty nations now share in the program.

One of the very attractive aspects of the program is that it is a "people to people program" and it seeks to help the needy not only with gifts of food but with farm tools, seed, fertilizer and the like so the needy may, by their own labors, produce food in the future in field and garden, Wagner said.

The program has very little "overhead" expense because most of the workers are volunteers, the foodstuffs are secured from Government surplus at very low rates and the distribution is made by volunteers directly to the consumer. It is estimated that one dollar raised in this program will give direct to the consumer more than 300 pounds of essential foodstuffs.

Wagner said "The church leaders and the rural people of the Northeastern area are to be commended for the enthusiasm with which they are accepting the responsibility of the call to be "thy brother's keeper". Such participation will make for a more significant Thanksgiving for the giver as well as for the receiver."

The program is being carried out by a special committee - the Lancaster County CROP Board, under the chairmanship of the Reverend Edward Steiner of Paradise and under the sponsorship of the Lancaster County Council of Churches.

● Sealtest

(Continued from Page 13)

you."

He went on to say the bishops have ruled against the lighting regulation "I class disobedience of the bishops as sin The wages of sin is death, and I would rather take my chance on this side of the grave than the other."

Dr. Davenport added, "We asked for a postponement of the Leaman Place plant in the hopes that something could be worked out, but we might as well face it. The plant will close on March 1, 1965."

Annual Dairy Cow SHOW and SALE

Wednesday, October 30, 1963

$300 – IN PRIZES – $300

$100. to be given to buyer of Grand Champion of show.
$50.00 to be given to exhibitor of Grand Champion.

All animals to be entered in the show must be on the premises not later than 7:00 p.m., Tuesday, October 29.

Cows entered in show will be judged at 10:00 a.m. on day of sale. Show cows will be sold at 2:00 p.m. Sale will start at 12 Noon instead of the usual 12:30 p.m.

We expect to have very large consignment of outstanding cows for this sale. Many of these cows are Pure Bred with very good milk and butter fat records. Our shippers have made a special effort to buy nothing but the best to enter in our dairy show and sale.

If you are in need of some real producing cows do not miss this sale. This is a buyers opportunity.

AT 12:30 P.M.
SALE OF DAIRY COWS

Mostly Holsteins and Guernseys, fresh, close springers, and milkers.

FARM BUREAU PROFITMAKER FEEDS

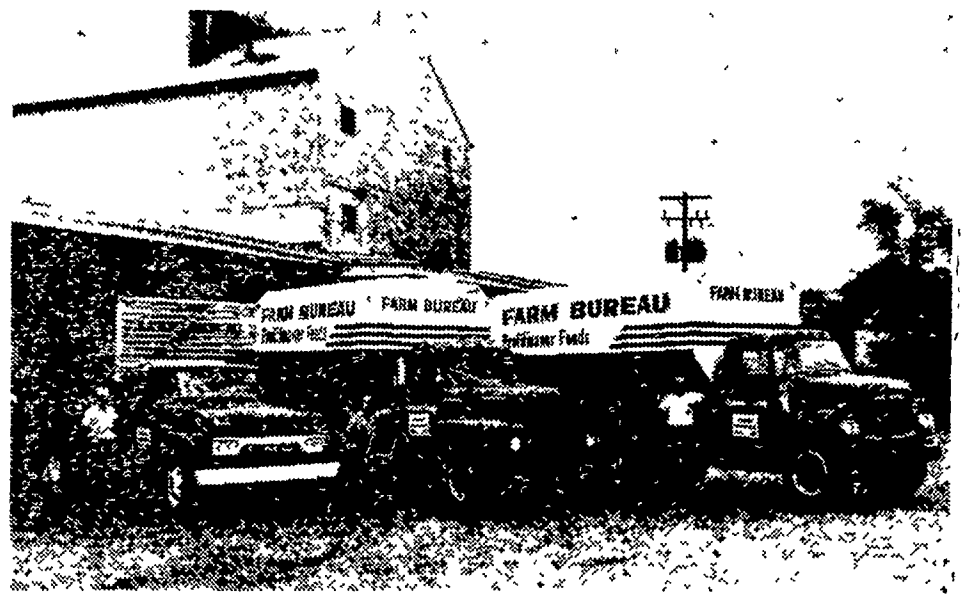
. . . for DAIRY POULTRY SWINE BEEF TURKEY

"Value Plus, and Service, Too"!

Modern Facilities

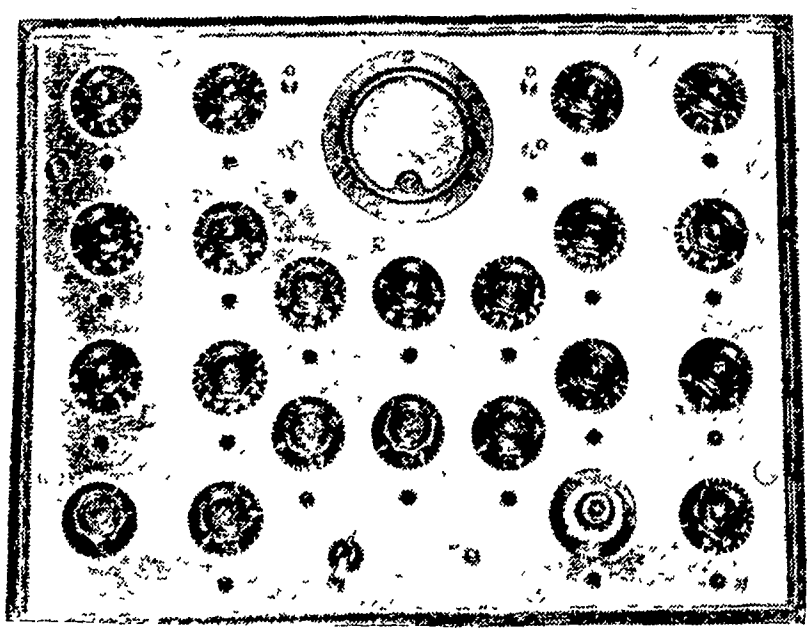
UP-TO-DATE FACILITIES include FARM BUREAU'S "Push Button" Feed Mill at New Holland and a second modern feed mixing plant at Quarryville.

SIX Bulk Feed Trucks assure prompt delivery of Farm Bureau "mill fresh" bulk feeds. Order yours in mash, meal, crumble or pellet form.



Profit Proven Programs

FARM BUREAU has a tested program to fit your need. Call the Farm Bureau Store nearest you for details. Our FIELDMEN are only too glad to explain the COWculator, Maximum Laying Program and our complete "feeding for profit" plan.



Qualified Personnel

A. F. KISH, recently added to our management staff as Feed Consultant, is an example of the "quality" in Farm Bureau's personnel. A graduate of Rutgers and the University of Delaware, where he received his Bachelor and Master of Science degrees, "Al" is responsible for feed formulation and nutrition. He brings with him the knowledge gained during ten years experience in the field of feed nutrition and research.
